SUMMARY

Motivated third-year Computer Science student specializing in Multimedia Computing at University Malaysia Sarawak. Skilled in UI/UX design, programming and web development. Actively seeking a 24-week internship opportunity (from 23 February 2026 to 7 August 2026) to apply technical skills and creative problem-solving in a dynamic IT environment. Eager to contribute to innovative projects and gain hands-on experience while further developing both technical and collaborative skills.

EDUCATION

University Malaysia Sarawak (UNIMAS) <i>Bachelor in Computer Science (Multimedia Computing) with Honours</i> CGPA : 3.37	2023 - Current
SMK SULAIMAN <i>Sijil Tinggi Persekolahan Malaysia (STPM) - Pure Science Stream</i>	2021 - 2023

RELEVANT PROJECTS

UNIMAS Car Rental System C	2023
<ul style="list-style-type: none">Developed a C system for managing car rentals, allowing customers to add, edit, delete customer records and calculate rental charges based on car type and rental days.Implemented file handling for storing and retrieving customer data and rental transactions, including mileage and insurance surcharges for local and overseas customers.	
Twinkle Little Star Bookshop C++	2024
<ul style="list-style-type: none">Developed a bookshop management system in C++ to handle sale orders, item management, and daily sales summaries.Implemented features for adding, editing, and removing items from orders, calculating total sales, and generating receipt details.Designed a search function to view orders by receipt number and a daily sales summary with item sorting by name.	
Mental Health App Java	2025
<ul style="list-style-type: none">Developed a Java-based GUI quiz system to promote mental health awareness through interactive quizzes and learning modules.Implemented gamification features to motivate users with rewards and feedback based on quiz performance.Designed modular components for user authentication, quiz management, and leaderboards, ensuring scalability and a user-friendly interface.	
KUTS Autonomous Rail Rapid Transit (ART) Application Figma	2025
<ul style="list-style-type: none">Designed a high-fidelity mobile app prototype for the Kuching Urban Transportation System (KUTS) focused on interactive maps displaying ART stations and nearby places of interest.Integrated search and filter features for users to find stations and places of interest, and suggested nearest stations to destinations.	

- Designed a relational database schema for ZoomRentals, supporting rental bookings, customer details, vehicle information, and payment processing.
 - Developed a command-line database application with CRUD operations (Create, Read, Update, Delete) for managing customer rentals, payments, and vehicle inspections.
-

WORKING EXPERIENCE

Staff of Pharmacy - Sunway Multicare

2021

- Stock management: Efficiently organized, labeled, and restocked pharmaceutical products, ensuring shelves were always well-stocked and inventory was accurately tracked.
- Cashier duties: Operated the point-of-sale (POS) system, processed customer transactions, and maintained accurate cash drawers.
- Customer service: Greeted and assisted customers with their pharmaceutical needs, including answering questions about products, dosage instructions, and availability. Helped customers select over-the-counter medications and provided information on drug interactions and side effects when required.
- Store maintenance: Ensured a clean and organized store environment, including checking expiry dates on products, managing the layout for easy product access, and ensuring compliance with health regulations.

Dealer - Genting

2023

- Customer service: Delivered excellent customer service to guests by providing a welcoming environment.
 - Team collaboration: Worked closely with colleagues to foster a cooperative team environment to maintain a seamless and enjoyable experience for guests.
 - Problem-solving: Addressed and resolved any disputes or customer concerns on the spot, ensuring a positive experience for all guests.
-

SKILLS

Programming Languages: C | C++ | Java | Phyton | HTML | PHP | CSS | MySQL | Kotlin

Technical Skills: Figma | Unity 2D | Android Studio | Canva | Visual Studio | Microsoft Word / Excel / PowerPoint

Soft Skills: Teamwork | Problem-solving | Communication | Adaptability

LANGUAGE

English : Fluent (Written and Spoken)

Bahasa Malaysia : Fluent (Written and Spoken)

Mandarin : Proficient (Written and Spoken)
